2. There is no question but that many of the procedural details will depend on operational security and cover standards. However, it is believed that the experience and ability of the members on the task force will enable them to devise improved methods consonant with and sufficiently flexible to meet operational security requirements in the field. For this reason, it might involve a duplication of effort if this office were to attempt to set forth such standards in vacuo. In accordance with the tentative arrangements reached between Messrs. [REDACTED] this office is designating Mr. [REDACTED] (Chief, Budget and Fiscal Branch) and Mr. [REDACTED] (Chief, Operational Security and Cover Branch) as OPC representatives to work with and assist the task force in specific matters pertaining to OPC activities. Copies of this memorandum are being sent to Messrs. [REDACTED] References (a) and (b) are attached to Mr. [REDACTED] copy with the request that he route it to Mr. [REDACTED]. It is suggested that you invite
